LET'S NOT DO THIS IN THE PARKING LOT: HOPES AND FEARS FOR SOON TO BE GRADS (AND THEIR PARENTS!)

Ms. Karen Jacobus, Coordinator of Health Education Mount Holyoke College

She's on the ground and she sees it all....come share your concerns, ask your questions, and hear from Karen about what she sees on campus during this transition from high school to higher education. She will share suggestions for being successful and where to turn for support. Designed for seniors (and interested juniors) and their parents. All members of the community are welcome to attend—many of us are part of helping to make this transition a smooth one!
